

STANLEY PAC[®]

READERS | Stanley GS3-LF Mullion Proximity Reader

The GS3-LF Mullion proximity reader offers unsurpassed quality and reliability, together with guaranteed quick and dependable read times keep traffic moving through secure areas.

The attractive enclosure is ideally suited to locations that require a reader with a small footprint that can mount on either a door frame (mullion) or any flat surface. When the reader senses the presentation of a valid card or key fob, a high visibility bi-color LED can be combined with the built-in audible sounder indicating that access has been granted, and tamper notification.

Both reliable and difficult to compromise, the reader is constructed of rugged polycarbonate plastic and potted using flame-retardant resin allowing complete freedom of use - both indoors and out.

The GS3-LF Mullion features simultaneous compatibility with multi-vendor credential technologies, in addition to reading 125KHz KeyPAC/153KHz PAC/Readykey™ credentials and most HID® 125 kHz Proximity, HID Corporate 1000® Proximity, — all in one reader!
