

### You'll wonder why all other access control solutions aren't made this simple...

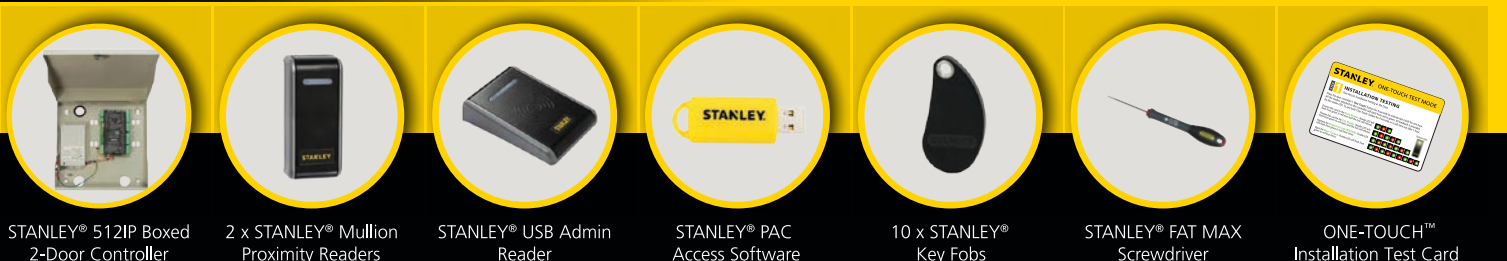

Stanley provides a comprehensive, quick and easy to install solution, that's simple to use for growing businesses. This two-door Starter Kit provides the everything needed to create a complete access control system, which can be expanded as required.

#### Key Features include:

- 2-Door Controller easily links to an IP network
- Supports 2 readers on each door (E.g. Dual Entry [ADA] or Entry and Exit)
- 3A Switchable 12 or 24VDC Power Supply/Charger with battery backup\*
- No additional Power Supply required, 2A@12VDC available to locks
- Clear installation instructions and color coded wiring terminals
- Readers only require inexpensive unshielded 22/4 cable, up to 825ft
- One-Touch™ Test Card enables one person to test the installation at the door
- 2-Door Expansion Kits available to grow the system (P/N 7S-ACEXPAND)
